Learning Objectives
At the conclusion of the symposium, the participants should be able to:

- Utilize regional anesthesia of the upper and lower extremities
- Manage continuous nerve blocks for postoperative pain control
- List the benefits of perioperative beta-blocker therapy
- Discuss why tight perioperative glucose control is important and manage it
- Perform safer anesthesia for pediatric patients
- Utilize the newest techniques for the labor patient
- Better manage anesthesia for the complicated parturient
- Effectively use new airway-management equipment

Target Audience
Anesthesiologists and Certified Registered Nurse Anesthetists. May be of interest to Anesthesiology Residents in training, Medical Students, Student Nurse Anesthetists, Perioperative Nurses, Anesthesia Technicians, and other health care professionals interested in anesthesia.
