Please join us for the 2008 Annual Urology Symposium at the lovely La Costa Resort & Spa. This symposium is designed to bring together health care providers in the field of Urology in a beautiful resort setting to help you update your knowledge and provide better care for your patients in today's ever changing, challenging, and advancing world of health care. Come hear and learn from national and international experts in the field and exchange ideas with your colleagues.

We look forward to seeing you at La Costa!

Learning Objectives
At the conclusion of this symposium attendees should be able to:

- Describe pelvic/prostatic anatomy as it pertains to robotic radical prostatectomy, as well as surgical technique necessary for improving outcomes following robotic prostatectomy.
- Reduce referrals to Pediatric Urology through improved office and surgical skills in the management of basic pediatric urology diseases, such as urinary tract infections, undescended testes, etc.
- Effectively advise patients with locally advanced prostate and bladder cancer, on the most appropriate multi-modality treatment for their disease.

Target Audience
Urologists, Medical Oncologists, Radiation Oncologists, and Pediatricians. May also be of interest to Urology Nurses.
