4. Angiographic Improvement After Rapid Intermittent Compression Treatment (ArtAssist®) for Small Vessel Obstruction. van Bemmelon, P.; Char, D.; Giron, F; and Ricotta, J.J. Department of Surgery, Division of Vascular Surgery, State University of New York and Stony Brook, NY, USA. Ann Vasc Surg 2003;17:224-228

13 Improving Walking Ability and Ankle Brachial Pressure Indices in Symptomatic Peripheral Vascular Disease with Intermittent Pneumatic Foot Compression: A Prospective Controlled Study with One-Year Follow-Up. Delis, K.; Nicolaides, AN; Wolfe, JHN; and Stansby, G. Imperial College School of Medicine, St. Mary’s Hospital, London, UK. J Vasc Surg 2000; 31:650-61.

14 Hemodynamic Effects of Intermittent Pneumatic Compression in Patients with Critical Limb Ischemia. Labropoulos, Nicos; Leon, Luis R.; Bhatti, Ahmad; Melton, Steven; Kang, Steven S.; Mansour, Ashraf M.; Borge, Marc. The Department of Surgery, Loyola University Medical Center, Maywood II. Journal of Vascular Surgery. October 2005; Volume 42, Number 4: 710-716

17 Determining the optimum intermittent pneumatic compression stimulus for lower limb venous emptying using direct pressure measurements. Bin Azizi, Z.; Dissertation submitted in partial fulfillment for the degree of Masters of Science in Vascular Technology and Vascular Medicine, 1995/96, University of London, Imperial College of Science, Technology and Medicine, St. Mary’s Hospital Medical School.

21 Optimum Intermittent Pneumatic Compression Stimulus for Lower-limb Venous Emptying. Delis, K.T.; Azizi, A.A.; Stevens, F.J.G.; Wolfe, J.H.N. and Nicolaides, A.N. Irvine Lab for Cardiovascular Investigation and Research, Academic Vascular Unit, Imperial College School of Medicine, St. Mary’s Hospital, London UD. Eur J Vasc Endovasc Surg 119, 261-269 (2000).

26 Effects of Intermittent Pneumatic Compression of the Calf and Thigh on Arterial Calf Inflow: A Study of Normals, Claudicants, and Grafted Arteriopathies. Delis, K.T.; Husmann, J.W.; Cheshire, N.J.; and Nicolaides, A.N. Imperial College School of Medicine, St. Mary's Hospital, London, UK. Surgery, 2000, Vol. 129, No. 2, p. 188-195

28 Haemodynamic Effect of Intermittent Pneumatic Compression of the Leg After Infainguinal Arterial Bypass Grafting. Delis, K.; Husmann, M.; Szendro, G.; Peter, N.; Wolfe, J.H.; Mansfield, A.O. Regional Vascular Center, Surgery and Department of Academic Cardiology, St. Mary’s Hospital, Imperial College School of Medicine, London, UK. Br J Surg 2004;91:429-34.

30 Compensation of Arterial Insufficiency by Augmenting the Circulation with Intermittent Compression of the Limbs. Henry, J.P.; Winsor, T. Am Heart J 1965;70:79-88
